SUPERIOR GLAZED STONEWARE DRAIN

PIPES, invented and manufactured by

WILLIAM NORTHER, UNION POTTERY, No. 14, VAUXHALL-WALK, LAMBETH.

W. NORTHER begs to inform surveyors, contractors, builders, water companies, &c., that he has completed "Hopcroft's" new patent machinery for making GLAZED STONEWARE DRAIN PIPES, JUNCTIONS, BENDS, ELBOWS, SYPHON-TRAPS, &c. &c. Amongst the many advantages of pipes made by this machinery over all others may be mentioned, that it insures perfect uniformity in form and size, both of pipes and sockets, the close fitting of a different and better construction than any others now in use; and the pipes and goods being made by one process are secure from separation.

W. N. invites particular attention to the superior quality of the glass used in his manufacture, which is equal to glass, and renders stoppage in the drains impossible. CLOSET PANS, with loose and fixed traps, and improved handle white glass.—W. NORTHER'S PIPES MAY BE INSPECTED AT THE FOLLOWING PLACES, WHERE ORDERS ARE RECEIVED:

Morris and Wood's, Harbour Wharf, Regent's Park Basin.—J. G. Hilton's, Crown and Sceptre Wharf, No. 6, Upper Thames-street.—Long and Son, Richmond.—Charles Hampton's, Jewin Wharf, Paddington.—G.
